

The Power of 2

Xpertdoc and **e-SignLive by Silanis** have partnered to bring to market an exciting new enterprise offering combining an award-winning document generation platform and the world's leading e-signature technology.

Xpertdoc's modern, end-to-end Customer Communications Management (CCM) platform enables insurers to:

- Drive up loyalty and retention with data-driven, personalized communications
- Leverage the dominant composition platform, Microsoft Word
- Reduce the risks of legacy systems with a fully automated forms migration process
- Seamlessly integrate with Microsoft Dynamics CRM and SharePoint

The most flexible electronic signature solution on the market, e-SignLive by Silanis:

- Quickly integrates e-signing with core systems for straight-through processing
- Automates simple transactions involving a single signer, as well as complex
- Fully customizes the e-signature GUI to reinforce branding for a seamless signing experience
- Offers fully-secure deployment flexibility - SaaS or on-premise

Talk to us today to discover how we can help you leverage the **new digital channels** to **speed business processes** and **drive customer loyalty**.
